PROJECTS

SPARSH – E-commerce Website for Natural Hair-care Products   **April 2025 - Present**
- Developed a full-stack e-commerce platform for my startup SPARSH, offering natural, self-manufactured hair-care products. Key features include user authentication via Supabase, shopping cart functionality, order placement with Razorpay integration, and customer information collection through interactive forms. Implemented email order notifications using Formspree and integrated Shiprocket for shipping logistics. Also included return and refund policy features to enhance customer satisfaction.

Women's Safety Website – Smart India Hackathon Project   **Feb 2025 - April 2025**
- In this project we have created a women's safety website with live location tracking, SOS alerts, emergency calls, text messaging, safety tips, and videos/shorts for protection.

Clone website of Make My Trip   **Aug 2024 - Sep 2024**
- In this project, I have made a clone of the MakeMyTrip website, where users can log in and book flights, hotels, trains, etc., directly from the original MakeMyTrip website.
